

PCS-9567TU-1000/1250/1375/1575/1750 1500V Series Outdoor Power Conversion System

Features

High efficiency and low losses

- Air-cooling, low system losses
- PCS three-level topology, maximum efficiency up to 99%

Grid friendly

- Various control modes such as PQ and grid-forming, suitable for different application scenarios
- Support IEC61850 protocol and fast communication interface, with millisecond response
- Support fault recording to facilitate fault analysis and location

Safe and reliable

- Separate primary and secondary compartment, high security
- IP 65, High protection class
- Separate circulating heat dissipation design, high efficiency and reliability

High integration

- Modular design, convenience for operation and maintenance
- Unit building block function, support parallel connection of multiple cabinets on the AC side
- Power and energy density increased by > 50%
